

The purposes of the Asian Mayors Forum are as follows:

To encourage cooperation among cities, municipalities and local governments throughout Asia; in order to achieve further prosperity and improvement of quality of life for citizens;

To empower urban management through expansion of city-to-city cooperation and multi-lateral collaborations among cities;

To promote and facilitate citizen participation in achieving sustainable urban development;

To support benchmarking best practices in urban management among Asian cities to meet their common challenges;

To promote and facilitate networking among cities, municipalities and local governments for exchanging information and experience in areas related to urban management;

To foster interaction and cooperation among Asian cities and citizens in various areas including cultural, social, economic, political, environmental, and scientific fields.
